Research Topics

Software Architecture
Service-Oriented Architecture and Applications
Autonomous and (self)-Adaptive Systems
Collective Adaptive Systems
Model-driven Engineering
IoT-based Systems
Smart Cities

Current Position

from June 2020 **Assistant Professor** at the Gran Sasso Science Institute (GSSI) (<http://www.gssi.it>), at the Computer Science department, L'Aquila, Italy.

Past Research Experiences

November 2018 - May 2020 **Postdoctoral researcher** at the Gran Sasso Science Institute (GSSI) (<http://www.gssi.it>), at the Computer Science department, L'Aquila, Italy.

November 2017 - November 2018 **Researcher** at the Distributed Adaptive Systems (DAS) unit (<https://das.fbk.eu/>), at Fondazione Bruno Kessler (FBK), Trento, Italy.

November 2013 - November 2017 **Doctoral researcher** at the Distributed Adaptive Systems (DAS) unit (<https://das.fbk.eu/>), at Fondazione Bruno Kessler (FBK) and Università degli Studi di Trento, Trento, Italy.

Education

November 2013 - November 2017 **Ph.D. in Computer Science** at the Doctoral School in *Information and Communication Technology*, University of Trento and Fondazione Bruno Kessler (FBK), Trento (Italy), with the *maximum score*.

Thesis Title Dynamic Adaptation of Service-Based Systems: a Design for Adaptation Framework.

Defense Date 15th May 2018

Thesis supervisors

Surname	Name	Institution	Country	Role
Pistore	Marco	FBK - Fondazione Bruno Kessler	Italy	Supervisor
Bucchiarone	Antonio	FBK - Fondazione Bruno Kessler	Italy	Co-Supervisor

Commission:
members and roles

Surname	Name	University	Country	Profession	Roles
Dustdar	Schahram	Vienna University of Technology	Austria	Full Professor	Member / Reviewer
Pautasso	Cesare	University of Lugano	Switzerland	Full Professor	President / Reviewer
Baresi	Luciano	Politecnico di Milano	Italy	Full Professor	Member / Secretary

September 2007 - March 2012 **Master's degree in Computer Science**, Faculty of Mathematical, Physical and Natural Sciences of the University of L'Aquila.

Thesis title "Modellazione di performance antipatterns nel linguaggio di descrizione architeturale *Æmilia*." (Performance antipatterns modeling in the Architectural Description Language *Æmilia*).

Topic Realization of:

- a metamodel for the Architectural Description Language "*Æmilia*";
- a transformation mechanism from *Æmilia* textual specifications to *Æmilia* models (text-to-model transformation);
- an engine for automating the detection process of performance antipatterns in *Æmilia* models available at <https://github.com/CatiaTrubiani/panda-aemilia>;

This work has been pursued further and published in the journal *Information and Software Technology*, 2017 (See Publications.)

Supervisor Prof. Vittorio Cortellessa

Co-Supervisor Dott.ssa Catia Trubiani

Final Mark Maximum score (110/110) "cum laude"

February 2008 - **Erasmus program**

June 2008 University of Warsaw - Faculty of Mathematics, Informatics and Mechanics - Warsaw, Poland

2002 - 2006 **Bachelor's Degree in Computer Science**, Faculty of Mathematical, Physical and Natural Sciences of the University of L'Aquila.

Thesis Title "Estensioni strutturali e comportamentali di un tool per la trasformazione di modelli software in modelli di performance". (Structural and behavioral extensions of a tool for the transformation of software models in performance models).

Supervisor Prof. Vittorio Cortellessa

Final Mark 104/110

1997 - 2002 **High school Degree** - Ragioniere Perito Commerciale e Programmatore - Istituto Tecnico Commerciale Statale "B. Pascal" via Bafile, 39 - 64100 Teramo (TE)

Final Mark maximum score (100/100)

Past Work Experiences

May 2012 - May 2013 **Software Developer** Quammodo S.r.l. - L'Aquila, Italy

Business sector: Web-based software applications.

Main responsibilities: Development of web-based, modular, extensible and customizable software applications through the use of technologies such as JEE 6, JSF 2.0, EJB 3.1, JPA2, JAAS. Activities of Test Driven Development (TDD) to support the implementation of a Software Patent (Peso delle Fonti) in the context of legal disputes. Research and analysis of Software Project Management tools based on agile methods (SCRUM).

September 2010 - March 2011 **Software Developer** Tribe ICT (www.tribeict.it) - L'Aquila, Italy

Business sector: Geographic Information Systems (GIS).

Main responsibilities: Design, management, and technological support for the development of a distributed, extensible and customizable GIS framework. The system is based on the uDig platform (<http://www.udig.org>) and exploits the following technologies: Java, Eclipse (RCP, EMF, JFace), JTS, Geoserver, Geonetwork.

Aug - Sept 2007 **Trainee** Tinn S.r.l. (www.tinn.it) - Teramo, Italy

Aug - Sept 2004 *Business sector:* Management systems for public administration.

Main responsibilities: Analysis, development and testing of the project MIIP (Modulo di Immatricolazione on line, Iscrizione e Pagamenti).

Teaching Activities

2022 I held a course for doctoral students together with Prof. Patrizio Pelliccione on: *Autonomous and Self-adaptive Systems*. (duration: 14 hours) at the Gran Sasso Science Institute (GSSI) - L'Aquila, Italy.

2021 I held a course for doctoral students together with Dr. Ludovico Iovino and Prof. Patrizio Pelliccione on: *Introduction to Software Engineering*. (duration: 30 hours) at the Gran Sasso Science Institute (GSSI) - L'Aquila, Italy.

I held a course for doctoral students on: *Introduction to Self-Adaptive Systems*. (duration: 6 hours) at the Gran Sasso Science Institute (GSSI) - L'Aquila, Italy.

2020 I held a course for doctoral students together with Dr. Ludovico Iovino on: *Software, Systems and Services*. (duration: 30 hours) at the Gran Sasso Science Institute (GSSI) - L'Aquila, Italy.

I held a course for doctoral students on: *Multi-agents systems modeling and simulation*. (duration: 6 hours) at the Gran Sasso Science Institute (GSSI) - L'Aquila, Italy.

2019 I held a seminar for doctoral students entitled: *Smart Cities: a high-level overview*. (duration: 2 hours) as part of the course *Software Systems and Services* at the Gran Sasso Science Institute (GSSI) - L'Aquila, Italy.

2018 I held a tutorial entitled: *A Design for adaptation framework for self-adaptive systems*. (duration: 3 hours) at the 12th IEEE International Conference on Self-Adaptive and Self-Organizing Systems - SASO 2018 - Trento, Italy.

Research Activities

Event Organization

2021 **Co-chair** of the International Summer School of Software Engineering and Continuous Development, Gran Sasso Science Institute - L'Aquila, Italy - Postponed to 2022 because of Covid-19.
Web site: <https://cs.gssi.it/devops2020/>

2020 **Publications co-chair** of the 10th International Conference on the Internet of Things (IoT 2020), Malmö University, Sweden - October 6-9, 2020.
Web site: <https://iot-conference.org/iot2020/>

2018 **Co-chair** of the 3rd International Workshop on Engineering Collective Adaptive Systems (eCAS 2018) at SASO 2018.

PC Membership

2022 *I have been appointed as a member of the novel Program Committee Board (PCB) of IJCAI - International Joint Conference on Artificial Intelligence for the next three years - IJCAI 2022, IJCAI 2023, IJCAI 2024.*

2021 *30th International Joint Conference on Artificial Intelligence - IJCAI 2021*

19th International Conference on Service-oriented Computing - ICSOC 2021

15th European Conference on Software Architecture - Demo Track - ECSA 2021

- 2020 *Thirty-Fifth AAAI Conference on Artificial Intelligence - AAAI 2021*
- 18th International Conference on Service Oriented Computing - Demo Track - ICSOC 2020*
- First International Workshop on Model-driven Engineering for Software Architecture (MDE4SA 2020) at ECSA 2020*
- First international workshop on frontiers in software engineering education - FISEE 2019*
- 15th International Conference on Software Technologies - ICSOFT 2020*
- First International Workshop on Modeling Smart Cities - MoSC 2020 at STAF 2020*
- 2019 *14th International Conference on Software Technologies - ICSOFT 2019*
- Second international workshop on software engineering aspects of continuous development and new paradigms of software production and deployment - DevOps 2019*
- 1st Workshop on Evaluation and Measurements in Self-Aware Computing Systems - EMSAC 2019 at SASO 2019*
- 4th International Workshop on Engineering Collective Adaptive Systems - eCAS 2019 at SASO 2019.*
- 2018 *3rd International Workshop on Microservices: Science and Engineering - MSE 2018*
- The 16th International Conference on Service-Oriented Computing - IC-SOC 2018 - Demo Track*

Other Reviewing Activities

- 2021
- **Peer-reviewer** for the Transactions on Software Engineering (TSE).
 - **Peer-reviewer** for the IEEE Intelligent Transportation Systems Transactions (T-ITS).
 - **Peer-reviewer** for the International Journal of Systems and Software (JSS), Elsevier.
 - **Peer-reviewer** for the International Journal on Software and Systems Modeling (SoSyM).

- 2020
 - **Peer-reviewer** for the IEEE Intelligent Transportation Systems Transactions (T-ITS).
 - **Peer-reviewer** for the International Journal of Systems and Software (JSS), Elsevier.
 - **External Reviewer** of IJCAI 2020, 29th International Joint Conference on Artificial Intelligence, Yokohama, Japan.
 - **External Reviewer** of ATMOS 2020, the Symposium on Algorithmic Approaches for Transportation Modelling, Optimization, and Systems, Pisa, Italy.
 - **External Reviewer** of ACSOS 2020, the 1st IEEE International Conference on Autonomic Computing and Self-Organizing Systems, Washington DC, USA.

- 2019
 - **Peer-reviewer** for the book "Microservices - Science and Engineering". Edited by Bucchiarone, A., Dragoni, N., Dustdar, S., Lago, P., Mazzara, M., Rivera, V., Sadovykh, A., Springer.
 - **Peer-reviewer** for the International Journal of Systems and Software, Elsevier.
 - **External Reviewer** of ICSA 2019, IEEE International Conference On Software Architecture, Hamburg, Germany.
 - **External Reviewer** of ICSOC 2019, the 17th International Conference on Service-Oriented Computing, Toulouse, France.
 - **External Reviewer** of SASO 2019, the 13th IEEE International Conference on Self-Adaptive and Self-Organizing Systems, Umea, Sweden.
 - **External Reviewer** of TOOLS50+1 2019, Technology of Object-Oriented Languages and Systems, Innopolis, Russia.

- 2018
 - **Peer-reviewer** for the International Journal of Simulation and Process Modelling.
 - **Peer-reviewer** for the International Journal of Systems and Software, Elsevier.
 - **Peer-reviewer** for the ACM Transactions on Autonomous and Adaptive Systems.
 - **External Reviewer** of the First international workshop on software engineering aspects of continuous development and new paradigms of software production and deployment - DevOps 2018.
 - **External Reviewer** of ICSOC 2018, the 16th International Conference on Service-Oriented Computing, Hangzhou, Zhejiang, China.
 - **External Reviewer** of SOCA 2018, the 11th International Conference on Service-Oriented Computing and Applications, Paris, France.

- 2017
 - **External Reviewer** of SASO 2017, the 11th IEEE International Conference on Self-Adaptive and Self-Organizing Systems, Tucson, AZ, USA.
 - **External Reviewer** of SEAMS 2017, the 12th International Symposium on Software Engineering for Adaptive and Self-Managing Systems, Buenos Aires, Argentina.
 - **External Reviewer** of SAC 2017, the 32nd ACM SIGAPP Symposium On Applied Computing, Marrakech, Morocco.
 - **External Reviewer** of eCAS 2017, the 2nd eCAS Workshop on Engineering Collective Adaptive Systems, Tucson, AZ, USA.
 - **External Reviewer** of IoT-ASAP 2017, the International Workshop on Engineering IoT Systems: Architectures, Services, Applications, and Platforms, Gothenburg, Sweden.
 - **External Reviewer** of PRIMA 2017, the 20th International Conference on Principles and Practice of Multi-Agent Systems, Nice, France.

- 2016
 - **Peer-reviewer** for the journal IET Software.
 - **External Reviewer** of ICSOC 2016, the 14th International Conference on Service-Oriented Computing, Banff, Canada.
 - **External Reviewer** of FSE 2016, the ACM SIGSOFT International Symposium on the Foundations of Software Engineering, Seattle, WA, USA.
 - **External Reviewer** of ICWS 2016, the 23rd IEEE International Conference on Web Services, San Francisco, CA, USA.
 - **External Reviewer** of SASO 2016, the 10th IEEE International Conference on Self-Adaptive and Self-Organizing Systems, Augsburg, Germany.

- 2015
 - **Peer-reviewer** for the journal IEEE Transactions on Services Computing.
 - **External Reviewer** of ICSOC 2015, the 13th International Conference on Service-Oriented Computing, Goa, India.

- 2014
 - **External Reviewer** of ICSOC 2014, the 12th International Conference on Service-Oriented Computing, Paris, France.

Participation in projects

from June 2020 Participant in the project **Cultural Heritage** - (*Programma Operativo Nazionale Ricerca e Innovazione (PON) 2014-2020 Project - Attraction and International Mobility (AIM) (Azione I.2, AIM - Linea 1)*)

Project Summary The project aims to structure a digital ecosystem for cultural heritage by supporting the digital transition of cultural heritage through the design and implementation of a software platform accessible online as a means to enable citizens to interact with cultural heritage more closely and in different ways. The realization of a smart environment in which portable device applications and multisensory instrumentation will form the basis of a technical approach that will exploit cutting-edge technologies to support the generation of a dynamic ecosystem. The project aims to: (i) Overall improve the availability of high-quality data on open platforms and social media and increase access to rich and diverse content for transmission in space and time, lowering cultural barriers and increasing public participation. (ii) Provide learning experiences and social entertainment that will contribute to a better understanding and reinterpretation of cultural heritage.

Web site <https://bit.ly/2X5SRce>

January 2018 - Participant in the project **Smart-Construction** - (*EIT Digital activity #18014*)
October 2018

Project Summary Smart-Construction is an innovation activity supported by EIT Digital in the field of digital industry providing holistic solutions to automatically monitor workflows and tasks on construction sites. Within the framework of this project, we have developed a product for the automated synchronisation of digital drawings and documentation with the actual progress of the construction site. It integrates portable computing and IoT technologies developed for deployment on construction sites.

Web site <https://bit.ly/2PAMwuk>

July 2013 - Participant in the project **ALLOW Ensembles** - (*ICT-2011.9.10 - FET Proactive: Fundamentals of Collective Adaptive Systems (FOCAS)*)
January 2016

Project Summary The objective of ALLOW Ensembles is to develop a new design principle for large-scale collective systems (CAS) based on the concepts of cells and ensembles. Cells are basic building blocks representing the different components of the system and ensembles are collections of cells collaborating together to accomplish certain goal in a given context. We use Adaptive Pervasive Flows – a programming paradigm based on workflow technology for pervasive systems – to model the behavior of cells as a set of interrelated tasks. This enables the salient principle of cell specialization. It allows for changing the behavior of the individual cell (tasks and order of execution) to fit into an ensemble and to achieve a given goal with high utility in collaboration with other cells of the ensemble. The ALLOW Ensembles concepts will be investigated on the basis of two scenarios that become increasingly relevant on the European scale: integrated urban mobility and smart production chains.

Research and training periods spent abroad

September 2017 Visiting period at the Department of Computer Science and Media Technology - Faculty of Technology and Society of the Malmö University (Sweden).

During my visiting, we set the environment for applying the design for adaptation approach of service-based systems in an Internet of Things environment. This way, we demonstrated the domain independent nature of the approach and further defined a software architecture for the dynamic formation and enactment of Emergent Configurations in the IoT (See Publications).

Moreover, I held an invited seminar titled: *A Design for Adaptation Approach of Distributed Service-Based Systems*, available online at: <https://mau.instructure.com/courses/3945/pages/previous-seminars>

Contributed presentations at scientific conferences

September 2021 7th Italian Conference on ICT for Smart Cities And Communities - I-CiTies 2021 - Title: *A Reference Architecture for Personalized and Self-adaptive e-Health Apps*. - Salerno, Italy (Online).

September 2019 13th European Conference on Software Architecture - ECSA 2019 - Title: *QoS-based Formation of Software Architectures in the Internet of Things*. - Paris, France.

September 2019 5th Italian Conference on ICT for Smart Cities And Communities - I-CiTies 2019 - Title: *LISCAMBIO: literacy and city-center revitalization*. - Pisa, Italy.

May 2019 Second international workshop on software engineering aspects of continuous development and new paradigms of software production and deployment - DevOps 2019 - Title: *A DevOps Perspective for QoS-aware Adaptive Applications*. - Toulouse, France.

September 2018 12th IEEE International Conference on Self-Adaptive and Self-Organizing Systems - SASO 2018 - Tutorial titled: *A Design for adaptation framework for self-adaptive systems*. - Trento, Italy.

November 2017 15th International Conference on Service-Oriented Computing - ICSOC 2017 - Title: *ATLAS: A world-wide travel assistant exploiting service-based adaptive technologies*. - Malaga, Spain.

June 2016 23rd IEEE International Conference on Web Services - ICWS 2016 - Title: *Incremental composition for adaptive by-design service based systems*. - San Francisco, CA, USA.

November 2015 13th International Conference on Service-Oriented Computing - ICSOC 2015 - Title: *Design for adaptation of distributed service-based systems*. - Goa, India.

12th International Workshop on Engineering Service-Oriented Applications - WESOA@ICSOC 2015 - Title: *Distributed service co-evolution based on domain objects*. - Goa, India.

September 2014 The 3rd European Conference on Service-Oriented and Cloud Computing - ESOC 2014 - Title: *Domain objects for dynamic and incremental service composition*. - Manchester, UK.

Ph.D. Symposium of the Third European Conference on Service-Oriented and Cloud Computing (ESOC 2014)- Title: *Domain Objects for Dynamic Service-based Applications*. Published as technical report and available at: http://www.minet.uni-jena.de/preprints/klan_14/ESOC_PhDSymposium_Proceedings.pdf

Summer Schools Attendance

June 2014 **Attendee**. Attended the *8th Symposium and Summer School On Service-Oriented Computing, 2014* - University of Crete, Greece.

September 2013 **Attendee**. Attended the *EIT ICT Labs Summer School, Intelligent Services for Digital Cities, (ISDC-2013)*, part of the "Digital Cities of the Future" programme of the EIT ICT Labs - University of Trento, Italy.
<https://www.eitdigital.eu/news-events/news/article/summer-school-on-intelligent-services-for-digital-cities/>

Miscellaneous

September 2018 Member of the supporting staff of SASO 2018, the 12th IEEE International Conference on Self-Adaptive and Self-Organizing Systems.

September 2008 Member of the supporting staff of ASE 2008, the 23rd IEEE/ACM International Conference on Automated Software Engineering.

March 2016 Poster at the ICT Days (<http://2016.ictdays.it/en>), Trento, Italy.

The authors contributed equally to the article.

Workshop Papers

- 2021 Maria Teresa Rossi, Martina Dal Molin, Ludovico Iovino, Martina De Sanctis and Manuel Wimmer. **Leveraging Multi-Level Modeling for Multi-Domain Quality Assessment**. At *the 8th International Workshop on Multi-level Modeling (MULTI) at MoDELS 2021*.
The order of authors reflects the extent of their contribution to the article.

- 2020 Eoin Martino Grua, Martina De Sanctis, Patricia Lago. **A Reference Architecture for Personalized and Self-adaptive e-Health Apps**. At *the 3rd International Workshop on Context-aware, Autonomous and Smart Architecture (CASA) at ECSA 2020*: pp. 195-209, doi: 10.1007/978-3-030-59155-7_15.
The order of authors reflects the extent of their contribution to the article.

Francesco Basciani, Maria Teresa Rossi, Martina De Sanctis. **Supporting Smart Cities Modeling with Graphical and Textual Editors**. At *At the 1st International Workshop on Modeling Smart Cities* at STAF 2020: pp. 9-19.
The order of authors reflects the extent of their contribution to the article.

2019 Ludovico Iovino, Martina De Sanctis, Maria Teresa Rossi. **Automated Code Generation for NFC-based Access Control**. Accepted to *3rd International Workshop on Model-Driven Engineering for the Internet-of-Things (MDE4IoT)* at the IEEE / ACM 22nd International Conference on Model Driven Engineering Languages and Systems, (Models - Workshops), pp. 31–38, 2019.

The order of authors reflects the extent of their contribution to the article.

Maria Teresa Rossi, Martina De Sanctis, Ludovico Iovino, Adrian Rutle. **A Multilevel Modelling Approach for Tourism Flows Detection**. Accepted to *6th International Workshop on Multi-Level Modelling (MULTI)* at the IEEE / ACM 22nd International Conference on Model Driven Engineering Languages and Systems, (Models - Workshops), pp. 103–112, 2019. doi: 10.1109/MODELS-C.2019.00020

The order of authors reflects the extent of their contribution to the article.

Martina De Sanctis, Antonio Bucchiarone, Catia Trubiani. **A DevOps Perspective for QoS-aware Adaptive Applications**. Accepted to *Second international workshop on software engineering aspects of continuous development and new paradigms of software production and deployment (DevOps)*, 2019, pp. 95–111.

The candidate contributed the majority to the article.

2017 Antonio Bucchiarone, Antonio Cicchetti and Martina De Sanctis. **Towards a Domain Specific Language for Engineering Collective Adaptive Systems**. Accepted to *2nd Workshop on Engineering Collective Adaptive Systems (eCAS)* at the 11th IEEE International Conference on Self-Adaptive and Self-Organizing Systems, (SASO - Workshops), pp. 19–26, 2017. doi:10.1109/FAS-W.2017.115

The authors contributed equally to the article.

2016 Antonio Bucchiarone, Martina De Sanctis and Annapaola Marconi. **Decentralized Dynamic Adaptation for Service-based Collective Adaptive Systems**. In *14th International Conference on Service-Oriented Computing, (ICSOC) 2016 Workshops - ASOCA*, pp. 5–20, Springer 2016. doi:10.1007/978-3-319-68136-8_1

The authors contributed equally to the article.

2015 Martina De Sanctis, Kurt Geihs, Antonio Bucchiarone, Giuseppe Valetto, Annapaola Marconi and Marco Pistore. **Distributed Service Co-evolution Based on Domain Objects**. In *13th International Conference on Service-Oriented Computing, (ICSOC) 2015 Workshops - WESOA*, pp. 48–63, Springer 2015. doi: 10.1007/978-3-662-50539-7_5

The authors De Sanctis and Geihs were the main contributors to the article.
